CHEMICAL & METALLURGICAL ENGINEERING

S. D. KIRKPATRICK, *Editor*

R. S. McBRIDE
Washington

PAUL D. V. MANNING
San Francisco
Editorial Representatives

M. A. WILLIAMSON
Publishing Director

Chemical & Metallurgical Engineering is the successor to *Metallurgical & Chemical Engineering*, which, in turn, was a consolidation of *Electrochemical & Metallurgical Industry* and *Iron & Steel Magazine*. The magazine was originally founded as *Electrochemical Industry*.

McGraw-Hill Publishing Company, Inc., New York City

Volume XLII

January to December, 1935

GENERAL ALPHABETICAL INDEX

	Pages
January	1 to 64
February	65 to 120
March	121 to 176
April	177 to 240
May	241 to 296
June	297 to 352
July	353 to 408
August	409 to 472
September	473 to 528
October	529 to 584
November	585 to648
December	649 to 704

A

Acetic Acid:
- Acetate vs. direct acetic. H. O. Chute (c) ... 506
- Acetic acid and a profit from wood distillation. D. F. Othmer ... *356
- Author Othmer responds to Chute. D. F. Othmer (c) ... 506
- Cheap acetic acid now challenges achievement (ed.) ... 355
- Direct, process flow sheet ... 597
- Produced from ethyl alcohol by fermentation ... *142
- Production in 1933. F. J. Curtis ... 24
- Profits in direct recovery. T. C. Albin (c) ... 507
- Wood distillation. H. O. Chute (c). 562

Acetone—Acetone and butanol in 1934. William Mueller ... 25

Acetylene as the basis for synthetic rubber, or DuPrene. S. D. Kirkpatrick. *588

Adsorption—Endicott-Johnson solvent recovery plant. R. S. McBride ... *532

Acids:
- Census data on acids (table) ... 24
- Charts for specific volumes of mineral acids. Perry & Davis ... *87
- Organic acids produced by fermentation process. Herrick & May ... *142

Air conditioning—C.G.M.A. meeting features air-conditioning ... 97

Alarm, carbon monoxide (E. N.) ... 160

Alcohol:
- Alcohol-gasoline blends main topic at Dearborn conference ... 285
- Alcohol produced at industrial plants and withdrawals for denaturing (table) ... 51
- Census data for distilled liquors and ethyl alcohol (table) ... 30
- Industrial alcohol ... 32
- Law on packing denatured alcohol products changed ... 691

Alkali—Slow increase in alkali (tables and charts) ... 42

Aluminum—Electrolytic process for oxide-coating aluminum ... 600
- Fink aluminum coating flow sheet .. 598

Aluminum chloride—Improvement in manufacture ... 26

Aluminum compounds and alum—Census data on aluminum compounds and alum (table) ... 26

Alzak process ... 596

American Ceramic Society—Report of Buffalo convention ... 153

American Institute of Chemical Engineers—Columbus meeting ... 667
- Committee on Chemical Engineering Education meeting ... *314
- Report of Wilmington meeting ... 264

American Petroleum Institute—Los Angeles meeting ... 679

American Society for Testing Materials—Symposium on paints and varnishes held at Philadelphia meeting ... 146

Amyl compounds. M. J. Hooper ... 26

Anode process of rubber deposition flow sheet ... 604

Asbestos, blue, for protection ... 303

Asphalt emulsions flow sheet ... 606

Award for chemical engineering achievement ... *587

Awards—Bring forth the achievements (ed.) ... 354
- DuPont wins achievement award' (ed.) 530
- DuPrene receives Chemical & Metallurgical Engineering award. E. G. Robinson ... *652

B

Bags:
- Burlap, for bulk chemicals. R. W. Lahey ... *544
- New containers for chemicals (Picture feature) ... 622
- Paper-lined textile bags for your products. R. W. Lahey ... *662

Bakelite—25th anniversary of Bakelite. J. A. Lee ... *540

Barium—Barite in abundance on the Pacific Coast. W. N. Williams ... *428

Barrels—New containers for chemicals (Picture feature) ... 622

Batteries—Electrochemical Society discusses developments ... 556

Black liquor recovery flow sheet (S&W Tomlinson process) ... 610

Black liquor recovery flow sheet (Murray-Waern system) ... 609

Book Reviews:
- A.S.T.M. proceedings ... 331
- A.S.T.M. standards on petroleum products and lubricants ... 100
- A.S.T.M. tentative standards, 1934 .. 331
- Alchemy child of Greek philosophy. A. J. Hopkins ... 330
- Alloys of iron and copper. Gregg & Daniloff ... 331
- American gas practice, v. 2, distribution and utilization of city gas. J. J. Morgan ... 276
- Annual reports on the progress of applied chemistry, ed. by T. F. Burton 331
- Annual reports on the progress of chemistry, ed. by Clarence Smith .. 331
- Annual survey on American chemistry. C. J. West ... 331
- Book of stainless steels, ed. by E. F. Thum ... 330
- Blue book of the gas industry ... 277
- British chemicals and their manufacturers ... 276
- British plastics year book for 1935. 277
- Brown's directory of American Gas companies ... 564
- Bulletin of the National Research Council, No. 95 ... 277
- Carboys, handling ... 564
- Cast metals handbook, 1935 ... 684
- Chart of plenty. Harold Loeb ... 389
- Check sheets. O. C. Holleran ... 564
- Chemical analysis of aluminum ... 564
- Chemical engineering catalog ... 565
- Chemical formulary, ed. by H. Bennett 330
- Chemische Ingenieur—Technik, ed. by Ernst Berl, vol. 1 ... 156
- Chemische Ingenieur—Technik, ed. by Ernst Berl ... 389, 563
- Chemistry and technology of wines and liquors. Herstein & Thomas ... 390
- Chemistry of cement and concrete. Lea & Desch ... 683
- Chimie, 1935. Emile Javet ... 100
- Colloid chemistry. A. W. Thomas .. 99
- Corrosion, causes and prevention. F. N. Speller ... 330
- Courses in chemical and metallurgical engineering ... 389
- Design and construction of high pressure chemical plant. Harold Tongue. 331
- Die chemische analyse. E. Brennecke and others ... 332
- Die einwirkung von salzsaure auf ziegelstein fassaden. E. Suenson .. 564
- Die rationelle gestaltung der chemisch-technischen produktion. Hans Hoppmann ... 332
- Einfuhrung in die sonderstahlkunde. Ed. Houdremont ... 563
- Electron tubes in industry. Keith Henney ... 157
- Enamels. A. I. Andrews ... 563
- Factual economics ... 330
- Fire hazard properties of certain flammable liquids, gases and volatile solids ... 276
- Formation of capital. H. G. Moulton 683
- Fortschritte in der anorganisch-chemischen industrie. Brauer & D'Ans ... 390
- Fundamentals of dairy science ... 276
- Gas, coke, and byproduct-making properties of American coals and their determination ... 156
- German-English chemical terminology. King & Fromherz ... 276
- German-English dictionary for chemists. A. M. Patterson ... 331
- Handbook of butane-protane gases, ed. by G. H. Finley ... 277
- Handbook of chemistry, ed. by N. A. Lange ... 276
- Handbook of chemistry and physics 19th edition, ed. by C. D. Hodgman. 331, 683
- Handbook of industrial fabrics. G. B. Haven ... 156
- Heat treatment and metallography of steel. H. C. Knerr ... 510
- Ice cream abstracts ... 332
- Income and economic progress. H. G. Moulton ... 683
- Industrial furnaces. W. Trinks ... 98
- Inorganic colloid chemistry. H. B. Weiser ... 563
- International Acetylene Association Proceedings ... 277
- Introductory colloid chemistry. H. N. Holmes ... 99
- Laboratory manual of colloid chemistry. H. N. Holmes ... 99
- Law of patents for chemists. Joseph Rossman ... 98
- Lewis' new air conditioning for comfort. S. R. Lewis ... 509
- Lilly Research Laboratories ... 684
- Manual for engineers ... 684
- Marketing industrial equipment. Bernard Lester ... 98
- Metallic arc welding. H. Harris ... 510
- Metallographie des aluminius und seiner legierungen. V. Fuss ... 99
- Metallurgical spectrum analysis. W. J. Crook ... 275
- Metallurgy. E. L. Rhead ... 390
- Mineral resources of the U. S., 1931. O. E. Kiessling ... 100
- Molybdenum steels, their manufacture and application. Vogel & Rowden .. 684
- New federal organizations. L. F. Schmeckebier ... 331
- Nitrocellulose ester lacquers. Fritz Zimmer ... 275
- Nitrogen system of compounds. E. C. Franklin ... 509
- Organic syntheses ... 390
- Oxy-acetylene Committee publications. 157
- Physical basis of things. J. A. Eldridge 99
- Physikalische chemie der eisenhuttenprozesse. H. Schenck ... 332
- Practical everyday chemistry. H. Bennett ... 100
- Praktische metallkunde. George Sachs 390
- Principles of motor fuel preparation and application. Nash & Howes. 275, 509

NOTES—(c) Comment; (ed) Editorial; (E. N.) Equipment News; *illustrated; (P. N.) Plant Notebook; (S) Synopsis or abstract.

Prinzipien der galvanotechnik. J. Billiter 99
Proceedings of the A.G.A. convention 564
Psychrometric charts for high and low pressure. D. B. Brooks..... 684
Report of the Chemistry Research Board for period ended December, 1934 684
Research—the pathfinder of science and industry. T. A. Boyd 389
Rock wool from Illinois mineral resources 276
Schwebstoffe in gasen. Winkel & Jander 332
Standards for gas service 99
Statistical appendix to Minerals Yearbook, 1932-33 331
Stone industries. Oliver Bowles.... 99
Structure of crystals. R. W. G. Wyckoff 564
Structure and properties of matter. H. T. Briscoe 389
Study of crystal structure and its applications. W. P. Davey 99
Symposium on paint and paint materials 564
Tautomerism. J. W. Baker..... 275
Technical Association papers..... 684
Technical gas analysis. George Lunge 98
Testing precious metals. C. M. Hole 276
Thorpe's dictionary of applied chemistry. Thorpe & Whitney..... 564
Transactions of American Institute of Chemical Engineers 331
Transactions of Electrochemical Society 331
Unit processes in organic synthesis. P. H. Groggins 98
Varnish making. Barry & Dunster.... 331
X-rays in theory and experiment. Compton & Allison 276
Borax—America's borax. G. A. Connell.. 430
Bottling, packaging and containers at the Chemical Exposition *636
Brick making—unburned refractories flow sheet 606

Bromine:
Blowing bromine from the sea 477
Bromine from sea water flow sheet.. 599
Developments in 1934. M. Y. Seaton. 37
Burners for sulphur. M. E. Othmer.....*374
Butanol—Acetone and butanol in 1934. William Mueller 25

C

California's growth reflected in her chemical industries. G. J. Young.....*460
Du Prene, or synthetic camphor, receives Chemical & Metallurgical Engineering award. E. G. Robinson.*652
Camphor—Synthetic camphor from turpentine. S. D. Kirkpatrick.....*592
Carbide—Small scale production of carbide. Gustave Reinberg *150
Carbon dioxide—Carbon dioxide for tank welding 555
Fermentation CO_2 purification flow sheet 608
Waste fermenter gas converted into solid and liquid carbon dioxide. W. N. Neidig *310
Carbon, structural, as a material of construction in chemical engineering. R. S. McBride *503
Carboy, standard—recomemnded by M.C.A. *96

Caustic Soda:
Caustic soda recovery in viscose manufacture flow sheet 601
Chlorine and caustic soda on the Pacific Coast. Fred Shaneman..... 432
Recovery of caustic soda in the rayon industry. J. A. Lee *482

Cement:
Cement rock beneficiation flow sheet..... 600
Census data for cement (table) 36
Froth flotation process applied to cement. T. R. Olive *68
Insulating (E. N.) 392
Lime and cement plants of the West Coast 422
Cement cooler (E. N.) *566
Centrifugal, solid-bowl (E. N.).....*687
Centrifuging, filtering and sifting at the Chemical Exposition *630

Ceramics:
Advance in ceramics 559
American Ceramic Society's Buffalo meeting 153
Census data for ceramics, brick and clay products (table) 31
Ceramic clays on the Pacific Coast. M. L. Hartmann *419
Ceramic raw materials on the Pacific Coast. B. M. Burchfiel 435
Electric firing of ceramics 378
Enameler's clay refined by new method. R. L. Cawood *154

Chemical Engineering:
Award for chemical engineering achievement offered by Chemical & Metallurgical Engineering *189
Change and its challenge (ed.) 177
Chronology of chemical engineering 400 B.C. 1934 178
Design and equipment of a chemical engineering laboratory. N. W. Krase 493
Developing better technique in experimental chemical engineering (A.I. C.E. Education Conference) *314
Development of the unit operations and equipment of chemical engineering:
Distillation. Gustav Egloff *200
Flow of fluids. W. L. Badger.....*203
Crushing and grinding. S. B. Kanowitz *206
Mechanical ingenuities of early engineers *209
Filtration. E. L. Oliver *210
Crystallization. H. B. Caldwell....*213
Drying. T. K. Sherwood *214
Evaporation. W. L. Badger.....*216
Heat transfer. McAdams & Hottel.*218
Mixing and agitation. Valentine & MacLean *220
Mechanical separation. Anthony Anable *222
Materials handling. G. L. Montgomery *224
Materials of construction. J. A. Lee.*225
Control equipment *227
Future for chemical engineering graduates? Anthony Anable *306
Improves its own status (ed.)..... 298
Let's look at the prior art. J. H. Perry *196
Mechanical ingenuities of early engineers (picture feature) 209
Problem for the profession (ed.)..... 66
Professional publicity (ed.) 241
Progress in fabricating the tools of modern industry. Carter & Wikoff.*192
Purdue surveys its graduates..... 309
"Retain a consulting engineer" (ed). 354
Some chemical engine ring beginnings. S. D. Kirkpatrick *180
Teaching the application of the unit operations. H. McCormack..... 73
What are the achievements of chemical engineering? .....*..476

Chemical Industry:
California's growth reflected in her chemical industries. G. J. Young..*460
Census data on process industries (table) 22
Chemical engineer's economic impressions of Europe in 1935. A. E. Marshall *244
Chemical industries tercentenary..... 251
Chemical manufacturing plants (charts) 4
Chemicals and allied products—1929, 1931 (table) 2
Chiseling by means of purity specifications (ed.) 123
Consumer-producer relations 9
Fluctuations in chemical industry, 1929-1934 (charts) 176
Going back to school (ed.)..... 475
How to price for progress. W. L. Churchill (charts) 129
New styles set for lobbying (ed.)... 474
Oregon's opportunities. O. F. Stafford.*458
Pricing for progress. W. L. Churchill. 12
Principal owning companies 8
Progress in fabricating the tools of modern industry. Carter & Wikoff.*192
Reputation to be sustained (ed.) 297
Symposium on producer-consumer relations in industry 24-41
Technical servicing for chemical products. L. A. Watt 14
Tercentenary of chemical industries (ed.) 121
Three centuries of chemical industry in America. Weidlein & Hamor..*185
Trends in production and employment in U. S. and Great Britain (charts) 7
Wage rates (tables) 6
Washington developments affecting chemical industry. Paul Wooton... 58
Washington State's potential chemical industries. H. K. Benson.....*456
What are the munitions of war? (ed.) 529

Chemical & Metallurgical Engineering:
Historical summary 56
History of chemical engineering.... April number

Chemicals—Census data on miscellaneous chemicals (table) 27
Chain store chemicals? (ed)..... 651
New products of the process industries —list of products, trade names, names of companies and the use for which it is intended.....611-615
Chilling machine (E. N.) 280

Chlorine:
Chlorine and caustic soda on the Pacific Coast. Fred Shaneman..... 432
Consumption and production. C. T. Henderson 28
Electrochemicals on the West Coast. W. Hirschkind 431
Is there a profit in chlorine and nitrate from salt? F. W. DeJahn.. 537
Classifiers and thickeners at the Chemical Exposition *635

Coal & Coal Products:
Bituminous coal hydrogenation produces gasoline at Billingham, England *658
Census data on coal tar products (table) 26
Coal resources of the Pacific Coast. Otto Herres *448
More trouble for coal industry? (ed.) 67
Processing coal in Knowles coke oven. R. S. McBride *300
Production and sales of coal tar crudes (table) 51
Thermal value nomograph for bituminous coal. D. S. Davis (P. N.)..*185
Codes—Classifying chemical codes (table) 20
Twelve fertilizer codes proposed (ed.) 354
Coke and coking—Manufactured gas and coke on the Pacific Coast..... 421
Processing coal in Knowles coke oven. R. S. McBride *300
Compressed Gas Manufacturers' Assn.—Annual meeting features air-conditioning 97
Compressor, centrifugal (E. N.)..... 102
Compressor, oilless (E. N.) 566
Compressor, two stage (E. N.) *687
Concentration—Potash mining at Carlsbad, N. Mex. 128
Concrete, insulating (E. N.) 568
Construction, new.....63, 119, 175, 239, 295, 351, 407, 471, 527, 583, 647

Containers:
Bottling, packaging and containers at the Chemical Exposition *636
Containers that serve customers. R. W. Lahey 16
New containers for chemicals (Picture feature) 622
Paper-lined textile bags for your products. R. W. Lahey *662
Preliminary tests for shipping containers. Eggerton, Eufer, White, O'Donnell, Coe, Dickey 272
Proper management for efficient packaging of chemicals. R. W. Lahey (charts) 132
Refers acid shipper to recognized channels. G. E. Tiley (c) 565
Shipping containers for acids (e) 507

Control—Endicott-Johnson solvent recovery plant operated by automatic controls. R. S. McBride *532
History of control equipment.....*227

Controllers:
Air operated (E. N.) 567
Automatic controller (E. N.)..... 513
Level controller (E. N.) *569
Non-hunting controller (E. N.)..... 160
Reset (E. N.) 512
Cooling towers (E. N.) 569
Corn, grind of—products of the industry 51

Corrosion:
Alloys that resist severe corrosive conditions. H. L. R. Whitney..... 370
Corrections on compilation of corrosion resistant metals and alloys..... 508
Electrochemical Society holds session on corrosion 148
Ferrous and non-ferrous alloys—corrosion resistant materials (table). M. A. Shaffer 383
Metals able to resist corrosion by phosphoric acid. F. A. Rhorman .*368
Protective coatings for wood in sodium sulphate. Kobe & Morey.. 682
Salt refining with equipment that will withstand corrosion. J. A. Lee....*124

Costs—Delivered cost the one that counts (ed.) 122
Pricing for progress. W. L. Churchill 12 (charts) 129
Coupling, flexible (E. N.) 688
Cracking Development Conference 283
Crushing—Crushing, grinding, homogenizing at the Chemical Exposition.....*627
History of crushing and grinding. S. B. Kanowitz *206
Crystallization—Development of crystallization. H. B. Caldwell *213

D

Dialyzer, straight line (E. N.) 394
Disks, rupture, for protecting pressure vessels. M. E. Bonyun.....*260

Distillation:
Acetate vs. direct acetic. H. O. Chute (c) 506
Author Othmer responds to Chute. D. F. Othmer (c) 506
Acetic acid by azeotropic distillation. D. F. Othmer *356
Bakelite's anniversary. J. A. Lee....*540
Development of distillation. Gustav Egloff *200
Drying, distillation and evaporation at the Chemical Exposition *629
Electric fatty acid distillation..... 608
Fatty acid distillation advanced....*372
Fatty acid distillation flow sheet.. 603
Liquor distillation (ed.) 475
Waste fermenter gas converted into solid and liquid carbon dioxide. W. N. Neidig *310
Wood chemical industry will profit and progress. D. F. Othmer (c) 562
Wood distillation. H. O. Chute (c).. 562

Drying:
Development of drying. T. K. Sherwood *214
Distillation, drying and evaporation at the Chemical Exposition *629
Heavy leather drying in five hours. Sherwood & Garono 539
Dust and fume handling—Venturi dust trap (E. N.) 161
Dyes—Domestic production of dyes, 1934.. 408
Dyestuffs as produced by Dupont. S. D. Kirkpatrick *593

E

Economics—Social reform vs. constitutional government (ed.) 353
Regulations by the federal government (ed) 650

Editorials:
Automatic equipment extends solvent uses 531
Back to the god old days? 475
Block the Black bill..... 122

NOTES—(c) Comment; (ed) Editorial; (E. N.) Equipment News; *illustrated; (P. N.) Plant Notebook; (S) Synopsis or abstract.

Bring forth the achievements..... 354
Can petroleum compete with the vegetable oils?..... 651
Chain store chemicals..... 651
Cheap acetic acid now challenges achievement 355
Chemical engineering improves its own status 298
Chemical industries tercentenary..... 121
Chiseling by means of purity specifications 123
Coast to coast 409
Dare we say "biggest and best?".. 530
Delivered cost the one that counts... 122
DuPont wins achievemnt award!.... 530
Education on trial? 65
Farm chemurgic formally organized.. 354
From whence our future motor fuel?. 650

All-welded steel evaporator for salt.. *328
Development of evaporation. W. L. Badger *216
Distillation, drying and evaporation at the Chemical Exposition *629
Salt refining. J. A. Lee *124
Evaporator, all-welded steel. M. J. Kermer (c) 508; C. S. Robinson (c)..... 685

Explosives:

Census data for explosives (table).... 33
Manufacture of explosives on the West Coast 423

Expositions:

Chemical Exposition number....November
Chemical Exposition of 1933 (ed.).. 530
Further new developments at the Chemical Exposition 689
New trends, designs, equipment at the Chemical Exposition *627
Twenty years of chemical shows (ed.) 566
Extraction — Nicotine extraction in Virginia 373
Simplifying the calculation of countercurrent extractions. E. M. Baker. *669
Soy bean extraction liable to dust explosions (ed)..... 650

F

Farm Chemurgic Council — Formally organized (ed.) 354
Fatty acid distillation advanced..... *372
Fatty acid distillation, electric, flow sheet 608
Fatty acid distillation flow sheet..... 603
Federal Housing Administration—Money for modernization (ed.) 626
Will loan money for plant modernization 362
Feeders—Instruments, weighers and feeders at the Chemical Exposition *636
Non-flooding (E. N.) *566
Vibratory (E. N.)....*336; (E. N.) *513
Fermentation—Organic acids produced by fermentation process. Herrick & May *142
Ferric sulphate. F. J. Curtis 30

Fertilizers:

Census data for fertilizers (table).. 33
Fertilizer industry in 1934 (tables and charts) 52
Fertilizer survey of the West Coast. R. S. McBride 425
Making concentrated superphosphate at T.V.A. fertilizer works. H. A. Curtis. *488
Recent trends in the fertilizer industry (chart) 120
T.V.A. makes phosphoric acid electrically at Wilson Dam. H. A. Curtis. *320

Filtration:

Air filter (E. N.)..... *569
Development of filtration. E. L. Oliver. *210
Dust filter (E. N.) *280
Filter carbon parts (E. N.)..... *160
Filtering, centrifuging and sifting at the Chemical Exposition *630
"Froth-flotation" air filter..... 690
Multiple bag filter (E. N.)..... *512
Flotation—Froth flotation process applied to cement. T. R. Olive *68
Potash mining at Carlsbad, N. Mex... 128
Flow Sheets—New processes and flow sheets 595
Fluid handling and heat transfer at the Chemical Exposition *633
Fractionating device, centrifugal (E. N.). *392
Fuel—Fuel resources to meet the needs of industry on the Pacific Coast:
Pt. 1 natural gas. C. C. Brown.... *445
Pt. 2 petroleum *447
Pt. 3 coal. Otto Herres *448
Octane fuels discussed at American Petroleum Institute meeting..... 679
Single fuel policy should be fixed first (ed.) 474
Furfural. F. N. Peters 31
Furnaces—Electric firing of ceramics 378

G

Gages—Pressure gage hook-up for high consistency fluids. J. H. Wilcox (P. N.) *278

Gas:

Census data for compressed and liquefied gases (table) 29
Census data for manufactured gas (table) 36
City gas developments 29
Gas purification flow sheet 602
Manufactured gas and coke on the Pacific Coast 421
Natural gas on the Pacific Coast. C. C. Brown *445
Pressure storage of gases and liquids. R. S. McBride *676
Sensible molal heat content of gases at high temperatures. C. C. De Witt (P. N.) 333
Gaskets—Ribbed gasket (E. N.)..... *335

Gasoline:

From whence our future motor fuel? (ed) 650
Gasoline treatment flow sheet (Lachman process) 597
Hydrogenation of bituminous coal to produce gasoline at Billingham, England *658
Polymer gasoline flow sheet (Polymerization Process Corp. process) 608
Polymer gasoline flow sheet (Pure Oil Alco Multicoil system) 596
Polymerization gasoline flow sheet (U. O. P. catalytic process)..... 607

Glass:

Advance in glass manufacturing.... 559
Census data for glass and glassware (table) 33
Glass containers manufactured on the Pacific Coast *424
Glauber's Salts. See Sodium sulphate.
Glycerine—Production of glycerine in 1934 (table) 55
Goggle, chemical (E. N.) *336
Grinding—Crushing, grinding, homogenizing at the Chemical Exposition..... *627
History of crushing and grinding. S. B. Kanowitz *206

H

Hammermill (E. N.) 282

Heat Transfer:

Development of heat transfer. McAdams & Hottel *218
Fluid handling and heat transfer at the Chemical Exposition *633
Fusible link safety device. E. F. von Wettberg, Jr. (P. N.) *391
Heater, oil (E. N.) 395
Heating—Inductive electric heating adapted to chemical industries. C. E. Daniels 325
Induction heating (A.I.C.E. meeting) 264
Homogenizer, laboratory (E. N.)..... *687
Homogenizing, crushing, grinding at the Chemical Exposition *627
Hydrogenation of bituminous coal to produce gasoline at Billingham, England *658
Hymolal salts process 607

I

Indicator, viscosity (E. N.) 338
Insecticides. C. P. McCormick..... 32
Development in recent years..... 558
Insecticides and fungicides produced on the Pacific Coast. E. R. de Ong..... 420
Instruments, weighers and feeders at the Chemical Exposition *637
Insulation, black iron (E. N.)..... *162
International Chemical Engineering Congress—American Chemical engineers to join in world conference..... 666

Iodine:

Iodine from well brines flow sheets. 605
Iodine plants on the West Coast. P. D. V. Manning 434
Iron and steel manufacturing on the Pacific Coast 422

J

Joint, rotary pressure (E. N.)..... *161
Joint, rubber (E. N.) *335

L

Labor:

Industrial medicine and toxicology make for safer plant operation. G. H. Gehrmann *672
National Labor Relations Act as threat to employer-employee relations... 499
Retirement pensions for employees. G. C. Parsons 89

NOTES—(c) Comment; (ed) Editorial; (E. N.) Equipment News; *illustrated; (P. N.) Plant Notebook; (S) Synopsis or abstract.

Social security (ed.) 473
Social Security Act. C. C. Parsons... 487
Social security and industrial pensions (ed.) 474
Thirty-hour week—block the Black bill! (ed.) 122
Wage rates in Chemical Industry (tables) 6
Laboratory for chemical engineering. N. W. Krase 493
Lactic acid from whey flow sheet..... 607
Leather:
Census data for leather (table) ... 34
Drying heavy leather in five hours. Sherwood & Garono 539
Library for chemical laboratory. Imxno... 387
Lighting fixture, explosion-proof (E. N.).*281
Lime:
Chemical lime. S. P. Armsby..... *90
Developments in the lime industry. H. G. Hough 33
Lime and cement plants of the West Coast 422
Little, Arthur D. (ed.) 474

M

Magnesium Compounds:
Development. M. Y. Seaton 35
Magnesium products on the West Coast. R. E. Clarke 430
Management:
Increased efficiency needed. H. L. Derby 28
New problems for management in chemical engineering. R. S. McBride 618
Proper management for efficient packaging of chemicals. R. W. Lahey (charts) 132
Manufacturing—Income returns of manufacturing industries for 1933 (table) 55
Manufacturing Chemists' Assn.—Meeting at Skytop, Pa. 342
Standard carboy recommended..... *96
Marketing—Specifications in chemical marketing. R. S. McBride 18
Technical servicing for chemical products. L. A. Watt 14
Materials Handling:
Chemical Exposition features 690
Developments in material handling from early days. G. L. Montgomery. *224
Endicott-Johnson solvent recovery plant operated by automatic controls. R. S. McBride *532
Froth flotation process applied to cement. T. R. Olive *68
Method and equipment for handling drums filled with liquid gases (P. N.) *278
Pallet method of materials handling.. *388
Materials of Construction:
Alloys that resist severe corrosive conditions. H. L. R. Whitney.... 370
Blue asbestos for protection..... 303
Chemical plant construction of the present and future. H. S. Jacoby. *654
Construction materials at the Chemical Exposition *639
Corrections on compilation of corrosion resistant metals and alloys..... 508
History of construction materials. J. A. Lee *225
Koroseal compositions 266
Materials recommended for oil refinery pumps. A. E. Harnsberger..... 144
Metals able to resist corrosion by phosphoric acid. F. A. Rohrman.. *369
New products of the process industries—list of products, trade names, names of companies and the use for which it is intended.....611-615
Plastics used in chemical plants as materials of construction..... 316
Precious metals for equipment (A.I. C.E. meeting) 265
Preventing seepage through linings. Kip & Currie *382
Refractory processes and materials. L. J. Trostel *363
Salt refining. J. A. Lee..... *124
Woods for use in chemical plants.... 152
Measuring liquids in tanks. W. S. Gilfoil (P. N.) *571
Melting—Mineral wool industry. Fryling & White *550
Metals—Ferrous and non-ferrous alloys (table). M. A. Shaffer..... 383
Metal industries produce and consume chemicals on the West Coast. Young & Hutti 438
Meters:
Flow interruption meter (E. N.)....*394
Flowmeter (E. N.) *161, *689
Isometer flow meter (E. N.).....*335
Recording flowmeter (E. N.) *688
Universal meter (E. N.).....*337
Methanol—Developments of methanol in 1934. M. H. Haertel 35
Production of crude and synthetic methanol (table) 51
Mill, centrifugal bowl (E. N.).....*511
Mill, grinding (E. N.) *393
Mills-Packard plant for manufacturing acids. P. J. Gleeson *379
Mineral wool. See Rock wool.
Mining industry increases reagent consumption 648
Mixing:
Batch mixer (E. N.) *337
Computing volumetric components of fluid mixtures. S. H. Ingberg.....*317
De-airing mixer (E. N.).....*103
Determining efficiency of continuous mixers and reactors. MacMullin & Weber, Jr. *254
Development of mixing and agitation. Valentine & Maclean *220
Making concentrated superphosphate at T.V.A. fertilizer works. H. A. Curtis *488
Mixers and separators at the Chemical Exposition *633
Turbine-type mixer (E. N.) *337
Modernization—Federal Housing Administration will loan money for plant modernization 362
Would new money solve your problem? (ed.) 626
Molding, injection, gains in use..... 539
Motors—Electric motors in severe service in chemical plants (picture feature) 304
Varidrive motor (E. N.).....*280

N

Naphthalene markets here and in the United Kingdom 704
National Fertilizer Association—Draft fair trade practice program 691
Naval stores—Production of naval stores in 1934 (table) 56
Representatives seek subsidy 691
New products of the process industries—list of products, trade, names, names of companies and the use for which it is intended 611-615
Nicotine extraction in Virginia 373
Nitric acid—Sulphuric and nitric acids on the Pacific Coast. D. S. Green.... 433
Nitrocellulose:
Developments in nitrocellulose. M. G. Milliken 36
Coating process to apply nitrocellulose to porous sheet 603
Lacquer emulsions 604
Nitrogen and Nitrates:
Census data on nitrogen compounds (table) 24
Fertilizer nitrogen. Chaplin Tyler.... 30
World production and consumption of fixed nitrogen (table) 54

O

Oil:
Animal and vegetable oils produced on the Pacific Coast. P. X. Smith... 436
Consumption of animal fats, greases, fish oils (table)..... 57
Factory production, consumption and stocks of vegetable oils (table)... 57
Materials recommended for oil refinery pumps. A. E. Harnsberger..... 144
Oleum—Calculation of mixtures of oleum and H_2SO_4. J. W. Fickenscher (P. N.) *159
Oregon's opportunities. O. F. Stafford.....*458
Orifice, automatic (E. N.) 687

P

Pacific Coast process industries in 1934. P. D. V. Manning 53
Packaging:
Bottling, packaging and containers at the Chemical Exposition *636
Burlap bags for bulk chemicals. R. W. Lahey *544
Packaging and shipping dangerous chemicals. R. W. Lahey *267
Proper management for efficient packaging of chemicals. R. W. Lahey (charts) 132
Proposition on packaging problems (ed.) 123
Rubber drums for shipping chemicals 387
Transportation of explosives and dangerous articles. Crass, Heath... 387
Packing material, saddle (E. N.).....*567
Paints:
A.S.T.M. holds symposium on paints and varnishes at Philadelphia meeting 146
Advances in the paint industry. J. P. Hubbell 36
Census data for paints and varnishes (table) 36
Corrosion resisting (E. N.)..... 337
Paint and varnish industry on the Pacific Coast. P. D. Buckminster..... 426
Varnish and paint progress..... 480
Patents—Proper policing of patent pools (ed.) 298
Pensions—Social Security Act. G. C. Parsons 487
Petroleum:
California petroleum refining. Arthur Lachman *414
Census data for petroleum products.. 40
Deasphaltizing petroleum distillates flow sheet 599
Experimental cracking of a gas oil in fused metal (A.I.C.E. meeting).... 667
Oil sludge recovery 603
Petroleum engineering and economics discussed at American Petroleum Institute meeting 679
Petroleum resources of the Pacific Coast *447
Petroleum technology advances 478
Polymerized gasoline 479
Refining lubricating oils by solvent extraction. J. V. Hightower..... *82
Refining motor oils by the alchlor process. A. M. McAfee *136
Revolutionizing the refining of lubricating oils (ed.) 243
Solvent extraction in petroleum refining. Ward & Forrest *246
Phosphates:
Making concentrated superphosphate at T.V.A. fertilizer works. H. A. Curtis *488
Phosphate rock beneficiation flow sheet 602
Sodium phosphates produced on the Pacific Coast. F. C. Bowman..... 430
Unwanted fluorine in insecticides (ed.) 123
Phosphoric Acid:
Forges ahead in three-way attack (ed.) 299
Making concentrated superphosphate at T.V.A. fertilizer works. H. A. Curtis *488
Metals able to resist corrosion by phosphoric acid. F. A. Rohrman...*368
T.V.A. makes H_3PO_4 electrically at Wilson Dam. H. A. Curtis.....*320
Pigments—Progress of industry in 1934. 49
Pilot plant in process development. F. C. Vilbrandt 554
Pipe:
Constant-support pipe hanger (E. N.).*102
Cutter for pipes (E. N.).....*567
Development of the flow of fluids. W. L. Badger.....*203
Plant location—Chemical plant construction of the present and future. H. S. Jacoby *654
Mathieson Alkali chose site for plant with reference to transportation...*258
New plants for process industries (Picture feature) 616
Plant Notebook:
Automatic weigher for bulk materials. O. O. Bishop *159
Calculation of mixtures of oleum and H_2SO_4. J. W. Fickenscher.....*159
Centralized measuring system for liquids in tanks. W. S. Gilfoil (P. N.) *571
Concentration conversion chart for oleum. D. S. Davis 391
Determining chemical pump capacities for liquids other than water. H. E. Weightman 686
Fusible link safety device. E. F. von Wettberg, Jr. *391
Heat of dilution of sulphuric acid. A. P. Haught *278
Method and equipment for handling drums filled with liquid gases....*278
Photoelectric scales in process weighing *571
Pressure conversion chart. C. J. Schilling (P. N.) 101
Pressure gage hook-up for high consistency fluids. J. H. Wilcox.....*278
Resistivity of sulphuric acid solutions (chart) 101
Sensible molal heat content of gases at high temperatures. C. C. DeWitt.... 333
Thermal value nomograph for bituminous coal. D. S. Davis *158
Plastics:
Bakelite's anniversary. J. A. Lee....*540
Ford uses soya bean in plastics..... 313
Gains in 1934 48
Injection molding gains in use..... 539
John Wesley Hyatt, founder of plastics (ed) 651
Koroseal compositions 266
New French plastics. Am. Matagrin (c) 508
Plastics used in chemical plants as materials of construction 316
Producing phenolic resins for casting. Herbert Chase.....*500
Producing phenolic resins for molding.*661
Plating—Electrochemical Society discusses developments 557
Potash:
Concentration of potash ores at Carlsbad, N. Mex. 128
Production in the U. S. R. S. McBride 37
Production of potash on the Pacific Coast. R. W. Mumford *434
Potassium compounds—Census data on potassium compounds (table) 26
Power—Power resources of the West Coast. Tenney & Leihy *440
Power show equipment 105
Press, salt (E. N.) *281
Pressure:
Pressure conversion chart. C. J. Schilling (P. N.) 101
Pressure storage of gases and liquids. R. S. McBride *676
Protecting pressure vessels with rupture disks. M. E. Bonyun.....*260
Prices:
Chem. & Met. weighted index of chemical prices.....59, 116, 172, 236, 292, 348, 404, 468, 524, 580, 644
Current prices....61, 117, 173, 237, 293, 349, 405, 469, 525, 581, 645
How to price for progress. W. L. Churchill (charts) 129
Pricing for progress. W. L. Churchill. 12
Production—Trends of production and consumption.....60, 115, 171, 235, 291, 347, 403, 523, 579
Pulp and Paper:
Black liquor recovery flow sheet (B&W Tomlinson process)..... 610
Black liquor recovery flow sheet (Murray-Waern system) 609

NOTES—(c) Comment; (ed) Editorial; (E. N.) Equipment News; *Illustrated; (P. N.) Plant Notebook; (S) Synopsis or abstract.

Census data for paper and paperboard. 38
